The women featured in this book include:

- **Marie Curie**, the first woman to win a Nobel Prize and the only person to win Nobel Prizes in two different scientific fields (physics and chemistry)
- **Rosalind Franklin**, the scientist who discovered the structure of DNA

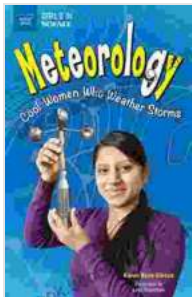

- **Jane Goodall**, the primatologist who revolutionized our understanding of chimpanzees
- **Grace Hopper**, the computer scientist who developed the first compiler for a computer programming language
- **Margaret Hamilton**, the software engineer who led the team that developed the software for the Apollo moon landing

These are just a few of the many cool women who have made a difference in the world of science. Their stories are inspiring and empowering, and they show that anything is possible for girls who dream big.
