Embracing the Spectrum: A Path to Self-Discovery

After a series of misdiagnoses, Temple was correctly identified as having autism. This revelation marked a transformative moment in her life, opening the door to self-acceptance and a newfound determination to harness her unique abilities. With unwavering support from her mentors, including her aunt, Ann Carson Scott, Temple embarked on a quest to understand her strengths and challenges, ultimately becoming a beacon of empowerment for others on the autism spectrum.

A Revolutionary Vision: Transforming Animal Welfare

Temple's love for animals fueled her lifelong dedication to improving their well-being. Drawing inspiration from her own experiences, she meticulously studied cattle behavior, revolutionizing the design of livestock facilities to minimize stress and maximize comfort for the animals. Her innovative squeeze chutes, which provided a calm and humane method of handling cows, became an industry standard and a testament to her enduring impact on animal welfare.

Temple's brilliance extended to animal welfare, transforming livestock handling practices.

Autism: A Spectrum of Abilities, Not Disabilities
